

# Wholesale Intelligence (Wi) Leading the Charge of Your Lending Operations

## Built for Wholesale Lenders. Designed for Results

When 8 of the top 10 national banks and 8 of the top 10 captives in North America choose Wholesale Intelligence (Wi), it's not just a software—it's a proven standard. Wi gives you the power to outpace the competition with smarter decisions, faster execution, and tighter control of your loan portfolio. Purpose-built for wholesale finance, Wi isn't just leading the charge—it's setting the bar.

## Why Wi is the Industry Leader

Wholesale lending is complex. With constantly shifting loans, varying rates and terms, fees, and curtailments, traditional loan management systems simply can't keep up. The question isn't if you'll face challenges managing your dealer relationships—it's how prepared you are to solve them at scale.

## Wi Gives You That Edge

Whether you're serving the Automotive, Commercial Truck, Powersports, Marine, RV, Equipment, or Agriculture markets—or all of the above—Wi delivers the performance and visibility you need. It consolidates every piece of your portfolio into one intuitive platform: loans, fees, billing, curtailments, and beyond. No silos. No bottlenecks. Just results.

Backed by 30+ years of expertise and a relentless innovation cycle driven by client feedback, Wi evolves with your business—not the other way around.

## Seamless Dealer Experience? That's Wi + DAS

Loan management is critical—but so is your relationship with your dealers. That's why Wi fully integrates with **DataScan's Dealer Access System (DAS)**, offering a frictionless, self-service experience your dealers will actually want to use.

**DAS empowers dealers** to manage their loans and payments directly while enabling real-time inventory connections between dealers, OEMs, and suppliers—making transactions smoother and inventory flow faster than ever.

If you're not offering this level of connectivity, your competitors might be. Don't get left behind.

## Powerful Benefits to Match Your Business

- **Flexible Terms:** Create a custom library of interest terms, fees, curtailment schedules, and more—giving you the flexibility to service dealers faster and with greater precision.
- **Adaptable:** Define business rules your way. When your business evolves, you control how and when these business rules are updated.
- **Comprehensive Loan Types:** Manage the full spectrum of loan types—Pay as Sold, Scheduled Pay, Working Capital, Revolving Lines of Credit, Mortgages, and beyond—all from a single, unified platform.
- **Dynamic G/L Mapping:** Easily integrate back to your core GL to handle your Chart of Accounts, allowing your core processes to run seamlessly while you continue to service the dealer market.
- **Auto-debiting:** Enable auto-debiting for on-time payments, every time—giving your dealers peace of mind and freeing up your internal resources.
- **Equity/Cash Management:** Define account terms with precision and monitor balances in real-time to ensure compliance with your lending requirements. Allow dealers to manage the balances in DAS for greater visibility and control.
- **Participation:** Lead or participate in syndicated deals with ease. Wi handles balances, interest, fees, and all deal activity—so you can stay in control while expanding your reach.
- **Mega Dealer:** As dealers consolidate and grow, Wi simplifies portfolio oversight with intelligent setup tools and scalable infrastructure, ensuring accurate billing, clean audits, and operational clarity at any size.

## Grows with Your Business

- **130+ Reports:** Access critical business intelligence when you need it most—from high-level dashboards to granular, portfolio-level detail.
- **API Library:** Unlock and integrate real-time data across your ecosystem—internal systems, partners, and beyond.
- **Auction Houses:** Leveraging DataScan's Partner Services Gateway, dealers have access to real-time credit availability through auction houses' mobile applications.
- **DataScan360:** Wi is part of the DataScan360 suite, allowing for effortless information sharing across teams, systems, and workflows.
- **Nightly Exports:** Enjoy automated ACH, EFT, EDI, G/L files, along with Daily Data Extracts for downstream reporting systems.
- **VIN Decoding & Valuations:** Utilize R.L. Polk for VIN decoding with automotive and J.D. Power & Black Book for valuations of automotive, motorcycles, and more.

## Scalable. Powerful. Proven.

Whether you're managing \$10 million or \$10 billion, Wi is built to scale with your ambitions. **With over \$100 billion in loans currently managed**, Wi can take on whatever your business throws at it—today, tomorrow, and beyond.

## Why Choose DataScan?

Wi is just one part of the DataScan360 Solution Suite—a full suite of solutions that gives you **total control, real-time insights, and the power to scale.**

Whether you're managing a single dealer group or a national portfolio, **DataScan helps you lend smarter, move faster, and stay ahead of risk.**

**Re-imagine what wholesale lending can be—experience the DataScan difference**
